

Bridge coronavirus item

It is anticipated that over the coming weeks a number of us within the East Witton parish will “self-isolate” (ie stay at home) as a precaution against the coronavirus pandemic.

For some, particularly those that don't have family or close friends near at hand, this may cause additional concerns about food supplies, shopping, payment of essential bills, even a friendly chat over the phone.

If you fall into this category, East Witton Parish councillors have agreed to be on hand to try to provide a lifeline.

They are not medically trained and can offer no help with identifying symptoms or giving advice. Call 111 for that.

But for more mundane matters if you need help ring them.
